Supply-Only Conservatory Guide

Planning, base and ordering

Most supply-only problems start with the base. Build it to our drawing: level, square and to the exact size.

How to Measure

1	Measure the space: the width along the house wall and how far out it comes. Note drains, manholes, windows, gutters and air bricks on that wall.
2	Check planning and Building Regulations before you order.
3	Choose the style, the roof (glass, polycarbonate or solid) and dwarf walls or full-height glass.
4	We send a drawing with base and dwarf wall sizes. Build the base exactly to it.
5	Check the base for level and square (both diagonals) and send us photos with tape measures in shot.
6	Book delivery once the base and walls are ready.

Your Measurements

Item	Measurement (mm)	Notes

Before You Order

- ☐ Planning and Building Regulations checked
- ☐ Base built to the drawing, level and square
- ☐ Dwarf wall height matches the drawing
- ☐ Roof type and colour chosen
- ☐ Door type and position confirmed
- ☐ Electrics, heating and plastering arranged separately

How Ordering Works

1	Use the supply form on the product page, or log in to the trade portal if you have a trade account.
2	We check your sizes and specification and send a written quote (trade accounts get their trade price).
3	Approve the drawing or order confirmation. **Check every size, colour, handing and glass type.** Once it is in production it cannot be changed.
4	Pay the proforma invoice. We place the order and confirm the delivery or collection date.
5	Check everything on arrival and report any damage or shortage within 48 hours, with photos.

Not sure? Send photos and rough sizes with your enquiry and we will check before anything is made. Call 0118 995 2549 or email cwgwindowcraig@gmail.com.
